Phi Blades complete guide - How to make the most out of it.

PHI BLADE U 304

STAINLESS STEEL 0.18

The first microblading blade made of 304 medical stainless steel of highest quality, extreme sharpness enables creation of exceptionally thin strokes. **Thinner needles** provide higher flexibility, enlarged distance between needles facilitates filling the pigment. Perfect for very precise, crisp and clear, extremely natural looking strokes.

PHI 11 BLADE

11 thin needles microblading blade which creates thin to medium thickness hair strokes. Durable and flexible, easy to work with.

PHI BOLD BLADE

16 PINS

Bold Blade is a 16 pin extremely precise blade with needles arranged in a unique shape, which makes it the perfect go-to needle for natural like strokes with various styles. Use the longer side of the blade to create normal strokes and the short side for achieving very short connected strokes. While using the blade switch sides for creating the desired strokes and combine both different effects into one flawless look.

PHI 18 U BLADE

This blade consists fine, single needles arranged closely to each other, in a way that creates **U-shaped row**. Due to its shape, this blade is perfect for drawing curvy hairs, and is often the top choice by microblading artists because of the effect it creates.

PHI 14 BLADE

14 thin needles microblading blade which creates thin to medium thickness hair strokes. Can be used to draw longer and wider hairs which combined with other blades effect can re-create extremely accurate natural like eyebrow effect.

PHI 3 ROUND BLADE

SHADING BLADE

PHI 3 round blade is ideal for delivering a shading effect at the space between strokes and front of eyebrows. Very flexible, precise and easy to work with. Creates very natural like shading dots.

PHI 9 BLADE

DOUBLE FLAT

9 DOUBLE FLAT BLADE is ideal for bigger space shading and colour distribution (spine, ombre, blending the color, great to create definition around the edges like at the inner/outer arch).

PHI 5 ROUND BLADE

5 round thin needles blade formation, easy to create soft shadow between the strokes. Compared to the 3R, it is slightly bigger and covers a wider area.

PHI 15 BLADE

DOUBLE FLAT

Ideal for bigger space shading and colour distribution (spine, ombre, blending the color, great to create definition around the edges like at the inner/outer arch). Compared to the 9 double flat, it is slightly bigger and covers a wider area, making the color application process go faster.

PHI 36 BLADE

ROUND OMBRE

36 Pin Slanted Round Shading Blade which creates a gradient, natural ombre effect. Ideal for manual OmbreShading technique/Powder brow effect. Due to its unique shape slanted on an angle, instead of the usual flat and round configuration, it creates very natural shading dots effect more easily, as you can flexibly work it to even delicate brow areas.

PHI 3R 4 BUNCH BLADE

Shading 12 pins blade with 4 Rows of 3 Round needles, with extremely high elasticity and flexibility. The unique created spaces in between needles give extremely good looking natural dots effect of the shading. This blade provides much faster operation of coloring resulting with very subtle shading effect at the same time. Easy to operate, high efficiency, less skin trauma.

PHI 21 ROUND BLADE

21 round needle provides fast shading or soft powder effect, with extremely precise definition. It can be used for ombre/shading brows alone or can be combined with hair strokes as well. You can use this blade for areas where you need to shade the eyebrow quickly and efficiently.

PHI 7 PINS BLADE

SHADING BLADE

7 pins flat shader blade with excellent stability and precision. It is sharp and elastic, delivering very smooth and natural shading effect, even for delicate areas. Capable of very fine shading and details.

PHI 38 PINS BLADE

SHADING BLADE

Unique formation Blade made of #38 four rows needles, intended to achieve rapid coloring and shading effect. The blade has flat shape and is crafted with unique needles style, with a coarse tail and soft front, which deliver very natural shading effect, at the same time being easy to control and with excellent stability. Great for completing areas of the eyebrow that need more coverage.

Suitable only for PHIGLOW HOLDER.

PHI 19 PINS BLADE

SHADING BLADE

19Pins Needle is a sharp and durable blade made of #19 three rows needles, intended to add some depth and dimension to the eyebrows, great for a smooth deposit of color creating ombre and shading effect. It also works great for filling in sparse areas. 19 shader blade is used to add some definition at the base of the brow, while keeping crisp strokes at the edges.
